contact@baptisterossi.com

Serious and dynamic, I take initiatives and know how to adapt quickly. Although I am a team player, I can work autonomously. My skills as a web developer range from HTML/CSS/JAVASCRIPT to PHP/SQL. I also master Adobe Suite (Photoshop, Dreamweaver/PhoneGap) as well as development of mobile applications/mobile websites. Since february 2013, I also work as a freelancer, developing websites and mobile apps. Fascinated by new technologies, I'm also interesting in video games, cinema and music (musical creation and DJing).

2013+ Ecole Européenne des Metiers de l'Internet (EEMI), Paris
3rd year in web development and mobile app development.
